THE ancient diocese of Worcester comprised the counties of Worcester, Gloucester, and the southern half of Warwick. In 1541 the diocese of Gloucester was formed, containing the whole of that county, which reduced the see of Worcester to the county of Worcester and a portion of the southern half of Warwick.

It might be thought that the wills previous to 1541 relating to Gloucestershire would be found in Worcester registry, but unfortunately such is not the case, there being comparatively few now in existence relating to that county prior to 1541.

Whilst this Preface is being written a further change in the boundaries of the diocese of Worcester is taking place. The new Bishopric of Birmingham is an accomplished fact, and as a consequence the old See of Worcester will suffer a further diminution of territory.

The whole of the Archdeaconry of Birmingham, which is situate in the northern portion of the diocese (and which includes the rural deaneries of Northfield, Birmingham, Aston, Solihull, Coleshill, Sutton Coldfield, and Poleshill), together with some parishes from the rural deanery of Dudley, go to form the new diocese of Birmingham.

The Calendar printed in the following pages is a list of Wills and Administrations proved and granted in the Consistory Court of the Bishop of Worcester. The date of the earliest Will is 1439, and there is only one for this year; the series may be said, therefore, to commence in 1451, which is the date of the next earliest document now in existence.

The Wills, etc., at Worcester consist of transcripts and originals. The Transcripts are contained in nine volumes as follows :—

Vol. I.	Containing Wills, etc.	1451-1495
II.	”	1509-1528
III.	”	1528-1539
IV.	Said to be missing.

There are also two volumes of Indexes of the Wills, etc., proved in the Peculiar Courts within the Diocese, namely, one for the Peculiars of Alvechurch, Bredon (including the Chapelries of Cutsdean and Norton), Fladbury (including the Chapelries of Throckmorton, Stock and Bradeley, and Wyre-Piddle), Hampton-Lucy (including the parishes of Alveston, Charlecote, and Wasperton), Hanbury, Hartlebury, Ripple (including the Chapelries of Holdfast and Queenhill), Stratford-on-Avon (including the Chapel of Bishopton), Tredington (including the parishes of Shipston-on-Stour and Tidmington), comprising the years 1712-1788; and one for the Peculiar of the Dean and Chapter which had jurisdiction over the following parishes: Berrow, Kempsey, Norton-juxta-Kempsey, St. Michael-in-Bedwardine, Stoulton, Tibberton, Wolverley, and the College Precincts, Worcester, comprising the years 1668 to 1788.

It will thus be seen that to make a search for the Wills of persons proved at Worcester is a very tedious and difficult matter, from the fact that several Indexes for the same periods have to be examined, which, being written in the old and crabbed writing of the office clerks of former days, is anything but an easy matter; and, further, there is no certainty whatever about these Indexes being correct or complete, no notice whatever being taken of the Administrations.

To remedy this most unsatisfactory state of affairs it has been the object of the Compiler of this Calendar (with the consent and approval of the Right Hon. Sir Francis Henry Jeune, K.C.B., President of the Probate Division, and of H. A. Franklin, Esq., District Registrar) to present as complete a list of *all* the Wills and Administrations and other official documents now preserved at the Worcester Court of Probate, which will now supersede the existing calendars from 1451 to 1600.

Every one of the Books of the Transcripts has been gone through page by page, and the names of the testators, with their abodes and dates, noted. The bundles of Original Wills, etc., have also been similarly examined and will be continued as time goes on.

The original numbering of the Wills has been preserved as far as possible, thus allowing a comparison, if necessary, with the original calendars. Fresh documents found in going through the bundles have *a*, *b*, *c*, etc., placed against them, or the numbering has been continued from the last in the old calendar.

A large number of marriage licenses have been found on the files, together with many Inventories for which corresponding Wills do not appear to exist.

It was found advisable to put the Wills, etc., between sheets of paper to prevent further destruction by constantly turning them. This will enable any will, etc., to be more easily found.

A good many sequestrations of parishes made upon the death or removal of the incumbent have also been discovered, and in many instances the name of the former incumbent is given. This may be useful to those who wish to complete the names of the Rectors or Vicars of such parishes.

The list of corrections, etc., was unavoidable, and many of them were discovered in compiling the Index Nominum for the British Record Society. This latter, together with the making of the greater part of the Calendar, is the work of Miss E. Hobday.

The Indexes Nominum and Locorum for the Worcestershire Historical Society were compiled by Mr. John Amphlett, to whom the thanks of the British Record Society are due for placing the Index Locorum at its disposal.

It is proposed to continue the Calendar from 1601 onwards at some future time.

PROVISIONAL INTRODUCTION.

THE CALENDAR printed in the following pages is a list of Wills and Administrations proved and granted in the Consistory Court of the Bishop of Worcester. The date of the earliest Will, of which there is only one, is 1439, but the series may be said to commence in 1451, which is the next earliest document now in existence.

The Wills, etc., at Worcester consist of transcripts and originals. The Transcripts are contained in 9 volumes as follows:—

Vol. I.	Containing Wills, etc.	1451-1495
II.	„ „	1509-1528
III.	„ „	1528-1539
IV.	Said to be missing.			
V.	Containing Wills, etc.	1545-1553
VI.	{ Part 1, containing Wills, etc.	1554-1584
	{ Part 2, „ „ „	
VII.	Containing Wills, etc.	1585-1642
[VIII.]	„ „	1543-1553
[IX.]	„ „	1652-1739

Volumes [VIII] and [IX] have no numbers to them, but they may be so called for the sake of convenience. Vol. VIII it will be seen covers a small portion of the gap between Vols. III and V. Vol. IV is said to have been missing for a number of years, but there are doubts if there ever was a Vol. IV.

The Bundles of Original Wills, etc., are some 472 in number, and may be grouped as follows:—

8	Bundles containing Wills	1493-1546
41	„ „ „	1550-1581
70	„ „ „	1582-1652
353	„ „ „	1660-1858

The Official Indexes to these Volumes of Transcripts and Bundles of Originals are both intricate and defective. Intricate because they are apparently in duplicate and even triplicate (some of the Volumes of Transcripts having Indexes bound up with them) for portions of the periods specified; and defective, not only from being much worn by constant reference, but also because none of the earlier Indexes mention the Administrations at all.

The following is a list of the Indexes as now existing in the Probate Registry :—

1	Volume for the years	1493-1616	} Original Calendar.
1	„	1616-1651	
1	„	1493-1600	} Compiled by
1	„	1600-1622	
1	„	1600-1651	} A Modern Calendar.
19 Vols. of Act Books for 1661-1858			

The last nineteen Volumes are Act Books of Wills and Administrations. Each volume has an index at the commencement. There is the usual gap between 1650 and 1661, when all Wills, etc., were proved in London.

Besides these Indexes there is “A list of Wills and Administrations received by the Deputy Registrar from the Executors of the late Francis Greenbank and not entered in the Will Books,” ranging between the years 1699 and 1752, and presumably not proved.

There are also two volumes of Indexes of the Wills, etc., proved in the Peculiar Courts within the Diocese, namely, one for the Peculiars of Alvechurch, Bredon (including the Chapelries of Cutsdean and Norton), Fladbury (including the Chapelries of Throckmorton, Stock and Bradeley, and Wyre-Piddle), Hampton-Lucy (including the parishes of Alveston, Charlecote, and Wasperton), Hanbury, Hartlebury, Ripple (including the Chapelries of Holdfast and Queenhill), Stratford-on-Avon (including the Chapel of Bishopton), Tredington (including the parishes of Shipston-on-Stour and Tidmington), comprising the years 1712-1788; and one for the Peculiar of the Dean and Chapter which

had jurisdiction over the following parishes: Berrow, Kempsey, Norton - juxta - Kempsey, St. Michael - in - Bedwardine, Stoulton, Tibberton, Wolverley, and the College Precincts, Worcester.

It will thus be seen that to make a search for the Wills of persons proved at Worcester is a very tedious and difficult matter, from the fact that several Indexes for the same periods have to be examined, which, being written in the old and crabbed writing of the office clerks of former days, is anything but an easy matter; and, further, there is no certainty whatever about these Indexes being complete, no notice whatever being taken of the Administrations.

To remedy this most unsatisfactory state of affairs it has been the object of the Compiler of the Calendar now being printed, with the consent and approval of The Right Honble. Sir Francis Henry Jeune, K.C.B., President of the Probate Division, and of H. A. Franklin, Esq., District Registrar, to present as complete a list of *all* the Wills and Administrations and other official documents now preserved at the Worcester Court of Probate, which, when completed, will supersede the existing calendars.

Every one of the Books of the Transcripts has been gone through page by page, and the names of the testators, with their abodes and dates, noted. The Bundles of Original Wills, etc., have also for a certain number of years been similarly examined and will be continued as time goes on.

The various Indexes above mentioned have not been compared systematically with the list as here printed, it being thought that the heavy labour this would entail had better be left till the Bundles of Wills had been gone through and a list printed. Then it will be possible to ascertain whether all the Wills mentioned in the old Indexes are in existence either in the Books of Transcripts or in the Bundles of Original Wills.

It is said that the Bishops' Registers contain some Wills, the earliest being that of Sir William Beauchamp, dated 1268. These, probably, will be examined and the Wills they contain noted.

† NOTE.—The folios run continuously up to and including folio 80, when the next now remaining is numbered 87. There are the remains of six leaves still in the binding, which probably contained the Wills of the following persons:—

Smith, Thomas.	Benford, Robert.
Fisher, William.	Coton, William.
Court, Daniel.	Stoyte, Robert.
White, John.	

which appear in the original Calendar at end of the volume. On folio 87 are the last few lines of a Will which was proved "penult. Feb. anno predicto."

Likewise after folio 87 there are seven leaves similarly cut out, but they probably did not contain Wills as there are none in the original Calendar for these missing leaves.

‡ Addition to a Will dated 12 June, 1529, proved 14 Oct. 1529, but the Will itself does not appear in the book; perhaps it was on one of the pages which have been cut out.

* This Probate is ruled out.

† This Will is not finished and there is no date of proof. A page is evidently missing here, as the next one contains the last part of a Will of some person, dated 15 July, 9 Henry VIII, and proved 24 November, 1519, and also an Inventory of Margaret Thomas, widow, of Worcester, which probably belongs to the portion of Will mentioned.

PREFACE TO PART II.

THE Calendar of Wills in the present part forms a continuation of that commenced in Part I. It will be remembered that that part concluded the Wills in the eight Volumes of Transcripts; those now calendared commence the one hundred and nineteen Bundles containing Original Wills, Administrations, and other documents to 1652, mentioned in the Provisional Introduction to Part I.

It will be seen that some of these Original Wills appear also in the Transcripts, but it would have taken too long to have identified such duplicates at the present time, and when the index of names to the whole volume is made the comparison will be much simplified.

E. A. FRY.

1547.

For the years 1547, 1548, and 1549 there are no bundles of Original Wills. That they existed at one time is evident from the fact of their having been calendared, but what has become of them it is impossible to say. The lists here printed are taken from the old calendar. Some of the Wills will be found in the Volumes of Transcripts, pp. 9 et seq.
